From: David Michaud, Director
 NCEP Central Operations

Subject: NCEP Central Operations (NCO) Critical Weather Day
(CWD) Status Webpage Update: Effective on or about 1800 UTC
April 28, 2025

The NCEP Central Operations (NCO) Critical Weather Day (CWD)
status web page will be updated on or about 1800 UTC April 28,
2025.

The CWD web page, available at
<https://www.nco.ncep.noaa.gov/status/cwd/>, will be updated to
include the following enhancements: 1) an hourly timeline of
current and expected critical weather status for the next 3
days, 2) larger graphics, and 3) continuous 1-minute updates of
active alerts.

The changes should have limited or no impact on general users,
but those relying on scripts to pull information from the site
can test against the quality assurance test page at
https://www.nco.ncep.noaa.gov/status/cwd/index_test.php prior to
the implementation date.

For questions or comments, please contact:

Robert Handel, Senior Duty Meteorologist Team Lead
NCEP Central Operations
Robert.Handel@noaa.gov
